Impeesa
HOLDINGS

Who Are We?

Originating from indigenous South African languages the term Ïmpeesa" was nicknamed to the late founder of Boy Scouts, Robert Stevenson Smith Baden Powell who was deemed to be a wolf that never sleeps. By the same token, in **2016**, Impeesa Holdings was officially incorporated with a vow to never sleep in a quest to provide our clients with quality consulting services centered on their needs and value addition. Impeesa has served both public and private sector clients for the past 10 years.

"At Impeesa, your needs define our language and we treat every client as if they were the only client at hand. We boast a team of adept professionals bringing fresh perspectives and innovative solutions. On one hand, our Cybersecurity and Forensics team helps you with IT governance, securing client and business data, compliance, technology strategic alignment, Return On Investment (ROI) realisation and improving efficiency. They ensure you Plan and Prepare for, Respond, Recover and properly investigate cyber incidents. On the other hand, our Audit and Risk Assurance team is a ***game changer*** *placing quality and transparency over commercial gain. They design tailored methodologies helping you review your systems, understand your business processes, identify risks and assess the design and effectiveness of your internal controls and proposing appropriate actions across manual and automated environments"*

Our Core Values

Our Mission

"We are committed to providing risk-based cybersecurity, technology, audit and related solutions and consulting services that are independent and subscribe to the highest standards of quality and ethics whilst being sensitive to the needs of our employees and clients amidst a disruptive socio economic and technological landscape."
